AIMS AND SCOPE

The **Advancing Medical Technology Research (AMTR)** aims to publish Medical Technology researches which are contributed by member researchers in the College of Medical Laboratory Science.

The **Advancing Medical Technology Research** is a peer reviewed journal that provides a venue for scholars to publish their research findings for advocacy and utilization. The content of the articles dwell on drug discovery and development, functional foods, community health, improving provisions of public health services, environmental and climate change health concerns, medical personnel occupational hazards, food safety, product efficacy, disease awareness, academic performance evaluation, and clinical/diagnostic examinations.
